Chronic anxiety can be overwhelming.

But it can also be overcome.

If you're one of the 10 million people who five with excessive uncontrollable worry, anxiety, tension, irritability, restlessness and sleep disturbances for six months or more, you could be suffering from Generalized Anxiety Disorder. The good news is

Paxil, the most prescribed medication of its kind for generalized arrisety, works to correct the chemical imbalance believed to cause the disorder. Paxil can help bring down your level of amatry, even if you have been suffering for years.
